

WORKPATH ANALYTICS SUITE

Workpath provides the necessary process and strategy monitoring analytics reports with insights about the **acceptance of the OKR process** and the **development and progress of the strategy execution**.

CYCLE STEERING

Find weaknesses of your OKR process to be able to rapidly adapt

Engagement Dashboard
User's activity on platform

Drafting Section
Quality and status quo of the OKRs

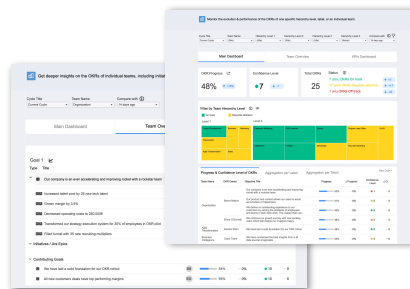

Alignment Section
Cross-functional alignment

Updates & Check-ins Section
Process compliance

STRATEGY EXECUTION

See the performance of the defined OKRs and possible risks of their execution at a glance

Strategy Execution Overview
Aggregated development of the OKRs

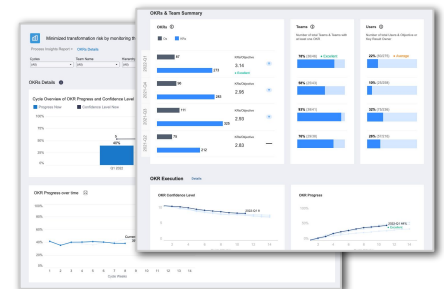

Executive Dashboard
Performance of leadership OKRs and the subteam OKRs

Team Section
Evolution of the team OKRs and the connected operative work

OKR MATURITY

See at a glance the cycle over cycle evolution of the OKR methodology

OKRs & Teams Summary
Essential metrics on the growth of the OKR implementation

OKR Process Section
A number of different process health metrics at a glance

OKR Execution Dashboard
Progress development comparison over cycles

MAIN USE CASES OF THE ANALYTICS SUITE

The **Engagement Dashboard** monitors OKR process compliance by measuring activity

The **Drafting Section** enables you to see which teams need support in their OKR quality

Use the **Alignment Section** to find OKRs which need more contribution to enable a successful strategy execution

Get an impression of how frequently the OKRs get updated looking at the **Update Section**

Understand which OKRs aren't performing as expected in the **Strategy Execution Overview**

Gain control of the leadership strategy by monitoring the performance in the **Executive Dashboard**

The **Team Section** connects the operative work of the team (Jira tickets, initiatives) and contributions from other teams to the evolution of the strategy

Monitor the growth of OKRs, teams, and individuals over the cycles in the **OKRs & Teams Summary**

Investigate various health metrics regarding all phases and aspects of the OKR Process in the **OKR Process Section**

Benchmark how strategy execution has evolved over the cycles in the **OKR Execution Dashboard**
